## ABOUT ME

MSc in Computer Science (Big Data) with a background in Python, APIs, and ML pipelines. **Backend Engineer** experienced in research projects and building real-world applications from design to deployment and maintenance.

## LANGUAGES

Spanish: Native  
Catalan: Native  
English: C1

## WORK EXPERIENCE

**Full-Stack Engineer and Consultant** AgrospAI | Universitat de Lleida | January 2025 - present

Full Stack Engineer for the deployment and maintenance of an agricultural Dataspace. Creating, testing and deploying smart contracts, building APIs & tooling, and microservice deployment environment in a self-owned kubernetes cluster. AI & data analysis algorithms, LLM & RAG systems, *Local LLM, RAG, Solidity, NextJS, Docusaurus, FastAPI, Django, Docker, K8s, sklearn.*

**Data Scientist Intern** GFT IT Consulting S.L.U | March - July 2024

Participation in NLP and Computer Vision projects: Creation of interactive demos with Gradio for stakeholders and image segmentation.  
*CVAT, PyTorch, Gradio*

**Data Scientist (HSINIR ML Research Project)** Universitat de Lleida | 2023

Machine Learning analysis of hyperspectral imagery for agri-food applications: Feature extraction, data augmentation, model training, classification and regression.  
*Scikit-learn, TkInter, Pandas, numpy*

## EDUCATION

**Grant holder (BIR)** for integration in an academic research team (Deep Learning project)

**Co-author of a scientific publication** in the agri-food AI domain. [link](#).

**HackEPS Award (Hackathon 7th edition)** Best Programming Practices

**Santander X Explorer Entrepreneurship Program**  
Certificate ([link](#))

**Universitat de Lleida (UdL)**

**MSc in Computer Science** | Big Data  
(2024 - 2026) GPA 9.27/10

**BSc in Computer Science** | Computing  
(2020 - 2024) GPA 8.73/10

**Lestonnac Lleida**

Bachillerato Científicotecnológico  
(2018 - 2020) GPA 8.39/10

## OTHER SKILLS

**Event-driven architecture**

- Kafka, MQTT

**SQL & NO-SQL & Vectorstores**

- Postgres, SQLITE, Elasticsearch, Milvus

**Cache**

- Redis

**CI/CD**

- Docker, docker-compose. k8s

## OPEN SOURCE CONTRIBUTIONS

**FastRAG** ([link](#))

CLI tool for automated RAG creation and testing

**ocean-runner** ([link](#))

Library for the development of algorithms within the decentralized environment of OceanProtocol.

**oceanprotocol-job-details** ([link](#))

Library for loading, validating and use of type hinted running job details for the OceanProtocol ecosystem
